**Subject:** Spenard Council Takeaway

Stephanie:

Becky and I attended the Spenard Council last night.

Major takeaway for Dave and the Campaign?

He should consider requesting to be on the agenda at every one of them. They are having a forum of candidates, maybe.....but he does not have to wait for that was the impression I received. He can simply request to be on the agenda to share his vision and take a few questions. These normally last 10 minutes.

Pass on to the powers that be. There are council members who need to be emboldened and this is one way to do that.

Last night a woman at the end shared that she was working on the campaign to elect Forrest Dunbar. All were smiling and nodding approval UNTIL Jerrod Dunbar chimed in and nicely said he was supporting Dave. Another woman who had been SILENT then also chimed in with her support for Dave and I gave a big thumbs up. The faces dropped like you would not believe. The woman who said she was working on the campaign for Forrest quickly backtracked and said she was not actually on the campaign but was "helping."

Only 23 were in attendance. We had four.....it's a start :-)

They are not used to this :-)

P
